A decorative graphic consisting of multiple thin, black, wavy lines that originate from the left side of the image and curve downwards and to the right, ending near the bottom left corner.

OBJECTIVE

- **Project Objectives:**
- **Convert HTML to DOCX.**
- **Preserve formatting and styles.**
- **Prioritize user-friendliness.**
- **Ensure security.**
- **Conduct testing and gather feedback.**
- **Plan for scalability.**
- **Provide comprehensive documentation.**

Project Overview

Users can easily convert HTML to DOCX.

A user-friendly interface.

Customization options for fonts and styles.

Responsive design for accessibility on various devices.

Backend Development:

Node.js and Express.js power the server.

Express.js handles client requests and API endpoints.

Error handling and security measures are in place.

Frontend Development:

**The frontend is built with HTML and CSS.
It offers a user-friendly interface for input and customization.
Responsive design ensures optimal viewing on different devices**

Conversion Mechanism:

**HTML content is converted to DOCX using suitable libraries.
The conversion process aims to maintain original formatting and styles.**

THANK'S
